

CLAD BOY® – Vacuum panel lifter.

The CLAD BOY® vacuum panel lifter has been developed for the safe and rapid handling and installation of composite wall and roof panels.

The lifter is suitable for all panel types (PUR/EPS/Mineral wool) and most surface coatings and finishes.

The Clad Boy® is offered in a basic configuration, suitable for vertical or horizontal wall panels with the additional option for roof panels.

Basic specification –

- Base unit and frame with integral lifting eye.
- Pivoting frame, with 90° tilt and spring loaded lock.
- Electrically operated vacuum pump in waterproof housing.
- Vacuum storage tank with non-return valve and adjustable automatic vacuum switch.
- Vacuum indicator gauge with 3-way operating ball valve, de-aeration filter and water separator.
- Dry cell re-chargeable battery, with charge level indicator and quick-change device. With a fully charged battery approximately 100 operating cycles can be achieved.
- Integral 110/220V charger in waterproof housing. Provides overnight charging.
- Audible warning device and indicator lights for safe vacuum level indication.
- Fall arrest straps for additional safety.
- Transport wheels for ease of handling.
- Full range of spares and additional components available.
- Full 12-month warranty on all parts, excluding suction cups.
- Dedicated Northern & Southern Ireland examination, testing and certification service
