

Glass•Boy

PROFESSIONAL VACUUM LIFTING DEVICE FOR THE SAFE AND RAPID INSTALLATION OF GLASS ELEMENTS.

In addition to the GLASSBOY® 611 Dual Vacuum System, this DC-powered vacuum lifter features Quadra-Tilt linkage, continuous 360° rotation and a variety of frame configurations, for maximum security and versatility on the construction site.

The GLASSBOY® 611 utilizes 6 suction pads to give a 500Kg capacity and a variety of configurations. Featuring dual vacuum technology, full tilt and rotation movement and wireless remote control load release, this lifter satisfies the most complex project requirements.

Machine specification –

- Dual vacuum system
- Low vacuum warning light and buzzer
- On-board battery and charger
- Battery energy gauge
- Vacuum gauge
- Vacuum line filter
- Vacuum reserve tank
- Spring-mounted vacuum pads
- Removable vacuum pad mounts
- Vacuum pad extension arms
- Remote control system
- Dedicated Northern & Southern Ireland examination, testing and certification service
