LEISTER

UNIDRIVE 500 – safe and economical – everywhere

The compact UNIDRIVE 500 automatic welder impresses with its many advantages. Guided by two handles, you will achieve the right pressure to ensure safe welding. Changing direction – via key combination and dual drive, it couldn't be simpler! The UNIDRIVE 500 welds every overlap. Everywhere, even if space is tight, and three times faster than manual welding. Lap welding with the UNIDRIVE 500 – safe and economical – everywhere

Reliable: Ergonomic handle for safe pressure during manual welding

Safe: Constant parameters and reliable quality – even with under voltage

Fast: Three times faster than manual welding

Customized: Reversible drive allows for welding in either direction

Practical: Compact and lightweight automatic welder: 4.5 kg, 30 cm high

Flexible: Stainless steel nozzle for all welding application

Economical: Maintenance-free, brushless motors

Intuitive: Simple user guidance and operation via display
